

WORLD KLEMS Conference

The Fourth World KLEMS Conference Madrid, Spain, May 23-24, 2016.

The 4th World KLEMS Conference has brought together more than 80 researchers from 5 continents interested in the analysis of the sources of growth. The objective of the Conference is to discuss recent progress in the development and applications of KLEMS data sets. These data are widely used in research on economic growth and structural change and in international comparisons based on purchasing power parities. The meeting took place at the Madrid offices of the [BBVA Foundation](#), which are located in the central part of the city.

Program

First Day, Monday, May 23:
